DETAILED ACTION

Response to Arguments

1. Applicant's arguments filed 3/14/2006, with respect to claims 1-14 have been fully considered and are persuasive. The objection to the specification and rejection of claims 1-10 has been withdrawn as follows:

Drawings

2. The drawings were received on 3/14/2006. These drawings are acceptable. The objection to the drawings under 37 CFR 1.83(a) is withdrawn.

Terminal Disclaimer

3. The terminal disclaimer filed on 3/14/2006 disclaiming the terminal portion of any patent granted on this application, which would extend beyond the expiration date of USP 6,828,900 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Double Patenting

4. The terminal disclaimer overcomes the rejection of claims 1-10 on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-5 of U.S. Patent No. 6,828,900 (Brillon) and therefore withdrawn.

Claim Rejections - 35 USC § 112

5. Claims 1-5 are amended to overcome the rejection under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention, and therefore withdrawn.

Allowable Subject Matter

6. Claims 1 to 14 are allowed.

7. The following is an Examiner's statement of reasons for allowance:

The prior art cited do not disclose the protocol of claim 1. Claim 6 recites a device and claims 10 and 11 recites a system for practicing the protocol of claim 1. The filing of the terminal disclaimer and amending the claims to point out and distinctly claim the subject matter which applicant regards as the invention places the application in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
